Subject: Opportunity to fix typos etc? EPR transition binder
Attachments: Office of Ecosystems Protection and Remediation-brain book body -EPR final.docx

Hey there, Sandy –

Fyi.
There's at least one typo that was not in the original EP material – "plane" should be "plain." Perhaps the material should be reviewed again for other typos to avoid poor first impressions. Is there that opportunity? There is some concern about the way the Colorado nutrients piece was annotated which may create a misunderstanding about the actual protection being provided by the State's rule and confusion when the RA is briefed on this topic.

Folks, this is EPR's material prepared for the new RA. Thanks for your work putting together EP's items.

Bert Garcia
Director, Ecosystems Protection Program
EPA Region 8
